

Grout Release

FILAPRW200

 **SEALER**
WATER BASED

FILA[®]
surface care solutions

NATURAL STONE, POLISHED PORCELAIN, QUARRY TILE, TERRACOTTA

WHAT IT'S FOR

- Water based protector against grout and mortar stains
- Reduces drying time and eases grout clean up
- Ideal for absorbent materials: natural and reconstructed stones, terracotta and quarry tiles

ADVANTAGES

- Provides protection against grout and construction dirt
- Eases grout clean up
- Does not alter the appearance of the material
- Easy to apply
- After the application it is possible to apply any kind of protection treatment
- Very low VOC emission product: certified by GEV and marked EC1 PLUS * and helps towards achieving credits for LEED **
- Creates an invisible barrier that is resistant to moisture and stains while allowing vapor to escape, thus preserving its integrity over time

HOW TO USE IT

Do not dilute: Ready to use. **Application:** Make sure the surface to be treated is completely free of dust. Apply an even coat of FILAPRW200 using a paint brush or lambswool applicator pad, avoiding surface pooling. Ensure the product also covers the edges of the installed material. The surface may be grouted 4 hours after the application of FILAPRW200. After the grout is cured, clean the surface with the appropriate cleaner for the material. After cleaning, apply a protective sealer. The product is not recommended for ceramic tile or dense (low absorbency) stone. **Caution:** Before applying FILAPRW200, test it on a small section to check for a change in color. Do not apply FILAPRW200 outside if rain is forecast.

*GEV (Association for the Control of Emissions in Products for Flooring Installation, Adhesives and Building Materials) certificate with EC1 PLUS "very low emission" products.

**LEED (Leadership in Energy and Environmental Design) is a certification for the development of 'green' buildings.

WATER BASED SEALER AGAINST GROUT AND MORTAR STAINS

REDUCES DRYING TIME AND EASES GROUT CLEAN UP

Coverage:
(1 QT - 0.95 L)

Stone 108-215 sq ft (10-20 m²)
Terracotta 75-108 sq ft (7-10 m²)

Coverage rates are indicative and per coat.

Packaging:
1 QT (946 ml) in box of 5
