CAVATINA COLLECTION

Fiorano Modenese, January 31, 2023

To whom it may concern:

Verde 1999 is wholly aware that protecting our environment is essential, and we contribute in every way possible to preserve our planet for the generations to come.

We guarantee that all of our products respect the industrywide Environmental Product Declaration for Italian ceramic and porcelain tiles with third party certification (by Institut Bauen und Umwelt e. V.) owned by Confindustria Ceramica of which we are members.

Furthermore, Verde 1999 srl only works with vendors whose production standards abide by the same criteria, using recycled materials in product wherever possible, recycling production waste, water, and energy, and controlling noise and emissions of air pollutants, inside and outside of the factory for the safety and well-being of the workers and nearby residents.

We also observe strict rules in our daily office organization in order to reduce the usage of paper, toner, and plastic as much as possible, and we recycle all recyclable materials and goods. We also produce a portion of the energy we consume with an in-house solar system.

Attached please find the Environmental Policy of our mother company, Gruppo Romani.

Yours truly,

Quality Control Department
Verde 1999 srl
