MEET ELIZABETH SUTTON

AND THE ART GEO COLLECTION

ABOUT ART GEO

Award-winning artist Elizabeth Sutton is back with a new and vibrant collaboration with TileBar. The Art Geo Collection captures both a terrazzo and encaustic look with Sutton's unique artistic touch in a bold blue, black, and gray color palette. With two graphic designs and an array of single color tile options, this exclusive porcelain line provides countless pattern variations, playing with balance, color, and scale.

ABOUT ELIZABETH SUTTON

Elizabeth Sutton is a Miami-based artist with New York roots who has exploded onto the art scene in the past few years. With design and influences spanning multiple industries and media, her patterns have reintroduced a stylized view of natural elements that rekindles the essence of Art Nouveau, while her choice of colors adds, according to the Sutton, "bold in the right places". Elizabeth Sutton is a longtime Tilebar collaborator.
